

EVALUATION OF THE SURVEY: Typical technical problems with bike!

NUMBER OF ANSWERS: 30 bikers from school

After evaluation we created the rang list of the most frequent problems with our bikers have during cycling:

1. CHAIN PROBLEMS	
2. FLAT TYRES	
3. ADJUSTING THE WHEELS	

<p>4. REPLACING THE BRAKE CABLE</p>	
<p>5. ADJUSTING THE SPEED GEAR</p>	

As lots of our students are coming to school by bike so some of them (40%) know how to fix problems with their bikes.

They learned how to do it from their fathers or some adult person ( 50%) or on Internet (13%).

To create a list we had criteria – number of the most very frequent, then frequent....
